Bolling Building 2300 Washington St

**SATURDAY, NOV 14**

12-2:30PM CHINATOWN

Quincy School 885 Washington St

**THURSDAY, NOV 19**

6-8:30PM ROSLINDALE

Community Center 6 Cummins Hwy

Join your fellow Bostonians from neighborhoods across the city for an interactive conversation with the Boston Transportation Department to shape our transportation system for 2030.

The **Idea Roundtables** are designed to gather transportation project and policy ideas that would most affect our lives. By donating your ideas, you will contribute to planning a transportation future that works for everyone.

**Go Boston 2030** is a City of Boston initiative to envision a bold transportation future for the city. The Action Plan will have transformative policies and projects generated by an inclusive public engagement process. We have used your voices and data analysis to develop a Vision Report with goals and targets. Now we are developing the Action Plan to improve walking, transit, cycling, and driving.
